Dr. George Hashim
The Council for Tobacco Research - USA, Inc.
900 Third Avenue
New York, NY 10022

Dear Dr. Hashim:

I recently spoke with you regarding a request for support of our upcoming meeting on ***Molecular Mechanisms of Drug Resistance*** to be held this fall, September 9-12, 1993.

As requested, I am enclosing an outline of the meeting and a list of confirmed speakers as of this date. We feel that it will be an exciting program, combining numerous important facets of the current drug resistance problem.

On behalf of the organizing committee, thank you again for your interest in The Albany Conferences. I would also ask you to please acquaint interested colleagues with our program so that they may attend the meeting.

Sincerely,

Carmen Mannella

Carmen Mannella, Ph.D.
Director, Laboratory of Pathology
Wadsworth Center for Laboratories and Research
